Make sure that these instructions remain with the door operator!

Read and follow these instructions carefully!

They provide you with important information on the safe fitting and operation, as well as proper care and maintenance, of your roller garage door / rolling grille. Keep these instructions and the warranty booklet in a safe place for later reference.

Enter the serial number (see the data label) here.
Serial no.:

1 ⚠ Safety Instructions

The manufacturer is not liable for damage resulting from non-compliance with these instructions including the safety instructions.

1.1 Qualified persons

Have a qualified person (competent person in acc. with EN 12635) fit, start-up and maintain the door following these instructions. While doing so, observe the requirements in the standards EN 12604 and EN 12635.

1.2 Symbols and signal words

Special safety information is provided at respective important points in these instructions. They are identified by the following symbols and signal words.

	The general warning symbol indicates a danger that can lead to injury or death .
⚠ WARNING	
	Indicates a danger that can lead to death or serious injuries.
⚠ CAUTION	
	Indicates a danger that can lead to minor or moderate injuries.
ATTENTION	
	Indicates a danger that can lead to damage or destruction of the product .

	Important note for avoiding damage to property
	Permissible arrangement or activity
	Non-permissible arrangement or activity
	See the text section (e.g. Section 2.2.1)

Dissemination as well as duplication of this document and the use and communication of its content are prohibited unless explicitly permitted. Noncompliance will result in damage compensation obligations. All rights reserved in the event of patent, utility model or design model registration. Subject to changes.

See illustrated Section (e.g. Section 2.1)

Risk of impact

Optional components

Roller garage door

Rolling grille

Move component slowly

Inspect

Tighten the screws by hand

Tighten the screws firmly

Dispose of component / packaging

1.3 Intended use

- The roller garage door is only intended for private use. If you would like to use the door in a commercial application, first check whether the currently valid national and international regulations permit such use.
- The rolling grille is only intended for closing passage openings in commercial and private applications. The rolling grille must only be operated by suitably instructed persons.
- The roller garage door / rolling grille is suitable for outdoor use; it opens and closes vertically.

1.4 General safety instructions

- Always keep the door's area of travel free from obstructions. When in operation, make sure that neither persons, children in particular, nor objects are located within the door's area of travel.
- Never use the door to lift objects and / or persons.

- Do not alter or remove any components! You could otherwise risk putting important safety components out of action. Only use original parts intended for use with this particular roller garage door / rolling grille.
- Protect the door from caustic, aggressive substances, e.g. nitrous reactions from stones or mortar, acids, alkali solutions, de-icing salt, aggressive paints or sealants.
- Make sure that there is sufficient water run-off and ventilation (drying) in the lower section of the side guides.
- Operating the door during heavy winds may be dangerous.

2 Fitting and Initial Start-Up

2.1 Safety instructions

⚠ WARNING	
Danger of injury	
There is a danger of injury during fitting. Observe the following instructions:	
	▶ Wear safety glasses and protective gloves.
	▶ Check that the fixing materials supplied are suitable for the given structural conditions. Only use suitable fixing material.
	▶ Secure the door from falling.

ATTENTION	
Damage to the product	
Observe the following instructions:	
▶	Throughout fitting, protect the door's components, especially the door curtain, from dirt and damage.
▶	Fasten the bracket holder to the building structure with 2 screws on each side!
▶	Fasten the side guides with 6 or 8 screws on each side. Otherwise the wind load indicated on the data label is not ensured.

2.2 Fitting

Roller garage door

The roller garage door can be fitted from the inside behind the opening or in the opening (see **Figure 1** to **Figure 10**).

Rolling grille (RG)

The rolling grille can be fitted from the inside behind the opening, in the opening or from the outside in front of the opening (see **Figure 20** to **Figure 30**).

All dimensions in the illustrated section are in mm.

2.2.1 Removing the screw

- ▶ Remove the screw from the bearing insert to adjust the length of the octagonal shaft.

To ensure simple and safe fitting, carefully go through the work steps!

2.3 Initial Start-Up

2.3.1 Checking the door spring tension (Figure 9.8 / 29.3)

- ▶ Open the door and then close it to any height. The door must remain in the respective position.

CAUTION

Door spring tension

Improper adjustment of the door spring tension may result in injuries.

- ▶ Only have a specialist adjust the door spring tension in accordance with **Figure 9.8 / 29.3**.
- ▶ After adjusting the door spring tension, secure the spring holders with the spring securing pins.

If the door moves substantially downwards:

- ▶ Increase the spring tension.

If the door moves substantially upwards:

- ▶ Decrease the spring tension.

2.4 Operation

WARNING

Opening and closing

There is a danger of injury in the door's area of travel.

- ▶ When in operation, make sure that neither persons, children in particular, nor objects are located within the door's area of travel.
- ▶ Only open and close the door with the exterior handle, interior handle, hand chain or the pull cord.
- ▶ Always secure the open roller garage door with the hand chain.

Perform a test run and check the door in accordance with Section 3, *Inspection and Maintenance*.

When properly fitted and inspected, the roller garage door / rolling grille door can be easily moved, is functionally safe and easy to operate.

3 Inspection and Maintenance

3.1 Safety instructions

- ▶ Have a specialist perform inspection and maintenance work on the door at least once in year in accordance with these instructions.

WARNING

Door travel

There is a danger of injury in the door's area of travel.

- ▶ When in operation, make sure that neither persons, children in particular, nor objects are located within the door's area of travel.
- ▶ Functional parts, particularly safety components, may only be exchanged by a specialist.

3.2 Checking the condition of the door

- ▶ Visually inspect the general condition of the door, all components and safety devices for completeness, proper condition and effectiveness.
- ▶ Check that all of the fixing points are tight. Tighten the screws if necessary.

3.3 Checking the door spring tension

See Section 2, *Fitting and Initial Start-Up*.

3.4 Replacing the door springs

- ▶ Have the door springs replaced by a specialist after approx. 20,000 door cycles.

This is required at the following approximate time:

Door cycles per day	Period	
Up to 5	Every	12 years
6 – 10	Every	7 years
11 – 15	Every	4 years
16 – 35	Every	2 years
Over 35	Yearly	

3.5 Checking the pressure roller, return pulley and lifting cables

- ▶ Clean the pressure rollers, return pulley and bolt.
- ▶ Check the rollers for wear. Have the rollers replaced by a specialist if they are greatly worn or damaged.
- ▶ Lubricate the bolt on the return pulley with a drop of commercially available lubricating oil (see **Figure 9.6 / 28.8**).
- ▶ Check the lifting cables for breaks or damage. Have a specialist replace any damaged lifting cables.

3.6 Checking the chain tension

- ▶ Check the chain tension in accordance with **Figures 5.2 / 10.3**. If necessary, set the chain tension by adjusting the chain housing.

3.7 Accessories

- To ensure a high level of quality, safety, reliability, as well as a long service life, only use original parts intended for this particular roller garage door / rolling grille.
- You can optionally receive the fitting compensation set (**Figure 1.1b / 20.1b**).
- Only use an operator approved for the roller garage door/rolling grille according to EN 13241-1. Follow the separate instructions for fitting and operation provided by the operator manufacturer. Immobilise the lock.

4 Cleaning and Care

The design of the roller garage door / rolling grille represents state-of-the-art technology. Pressure marks and abrasive wear, particularly on the top profiles, are design-related and cannot be avoided. They are not considered a reason for complaint.

- ▶ In order to avoid excessive friction, remove any soiling from the door curtain at regular intervals.

4.1 Door curtain

- ▶ Clean the door surfaces with clear water, a soft sponge and a neutral, non-abrasive cleaning agent.

4.2 Lock

- ▶ Only use specialised care products for the profile cylinder.

Do not use oil or graphite.

4.3 Data label

- ▶ Clean the data label.

It must always be easy to read.

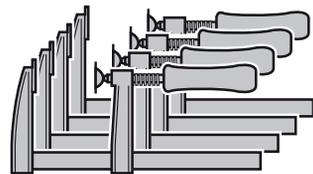

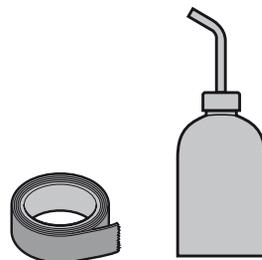

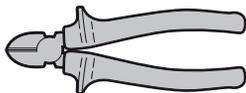

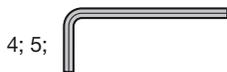

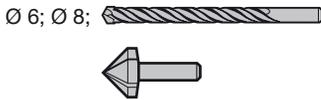

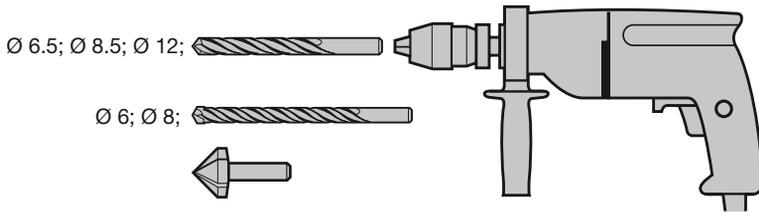

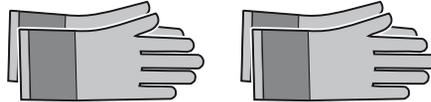

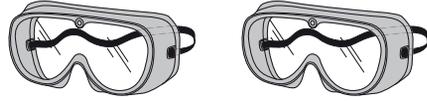

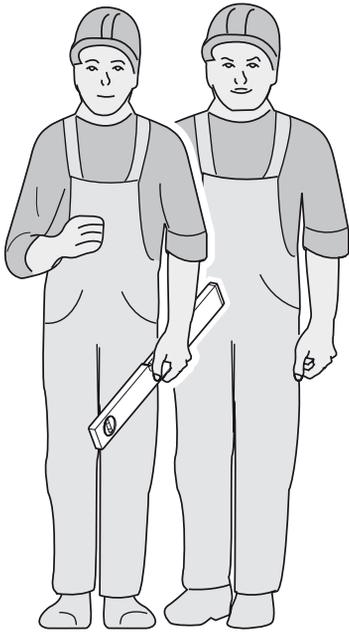

5 Assistance with malfunctions

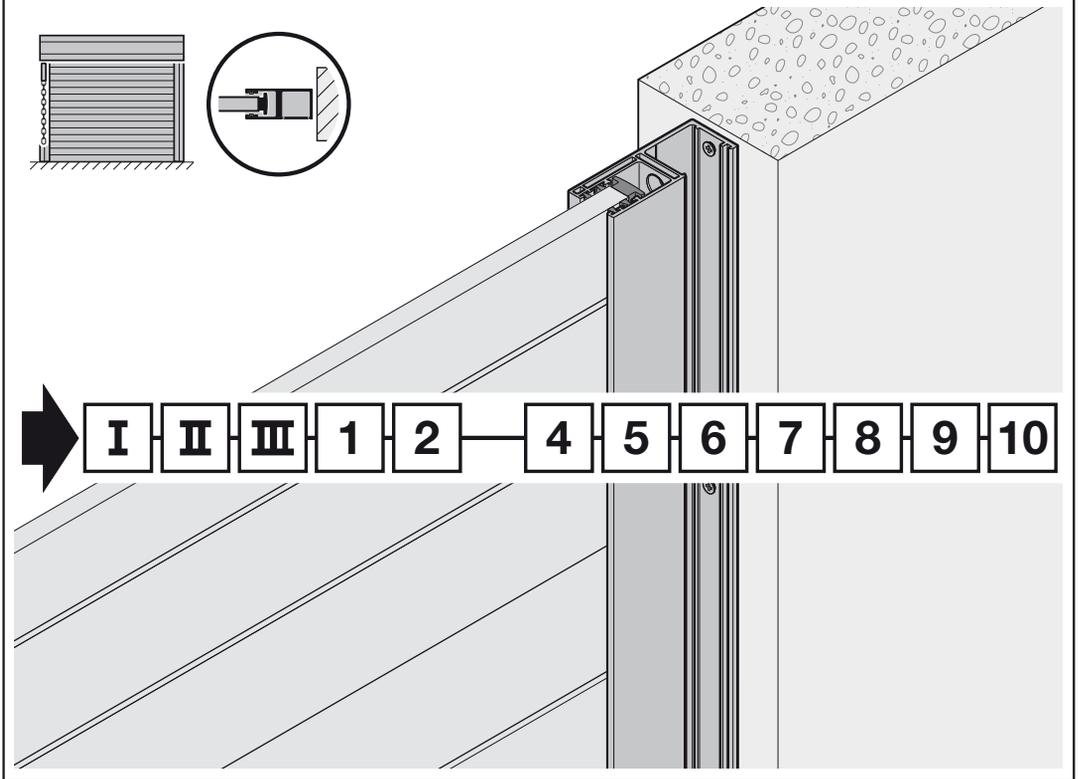

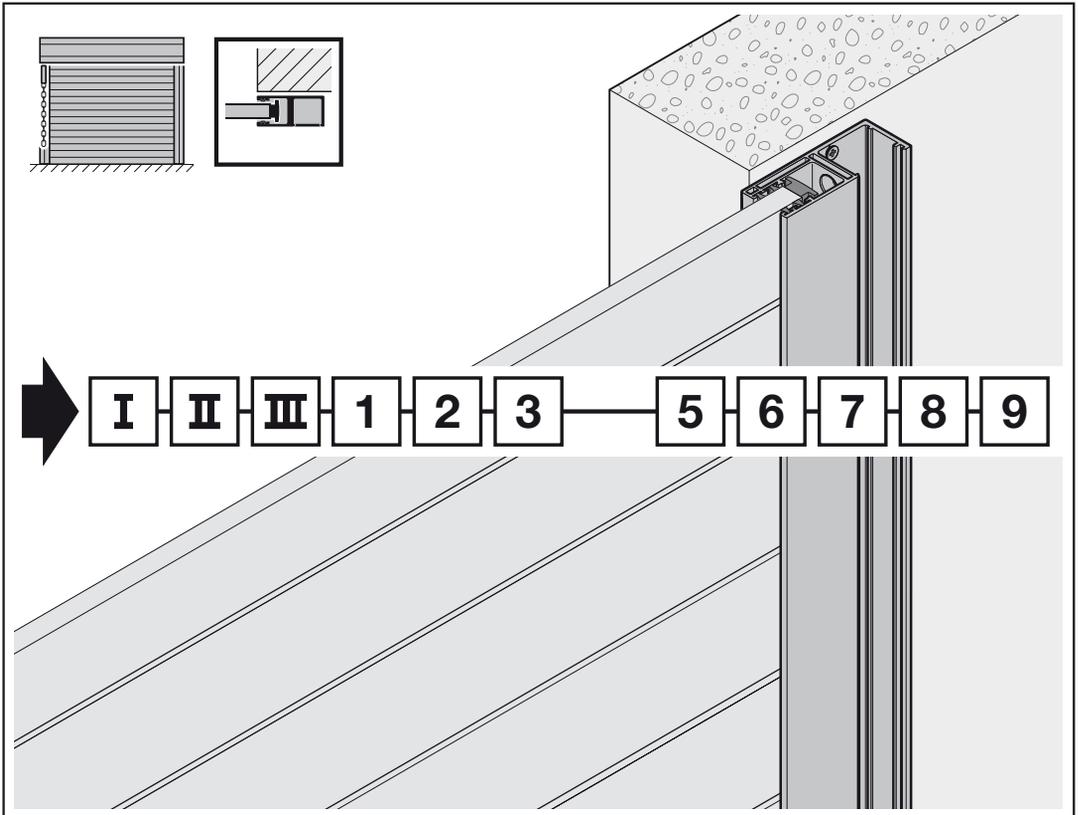

If the door is difficult to move or exhibits other malfunctions:

- ▶ Check all the functional parts. To do this, please follow the instructions in Section 3, *Inspection and Maintenance*.
- ▶ In the case of uncertainty, contact a specialist for assistance.

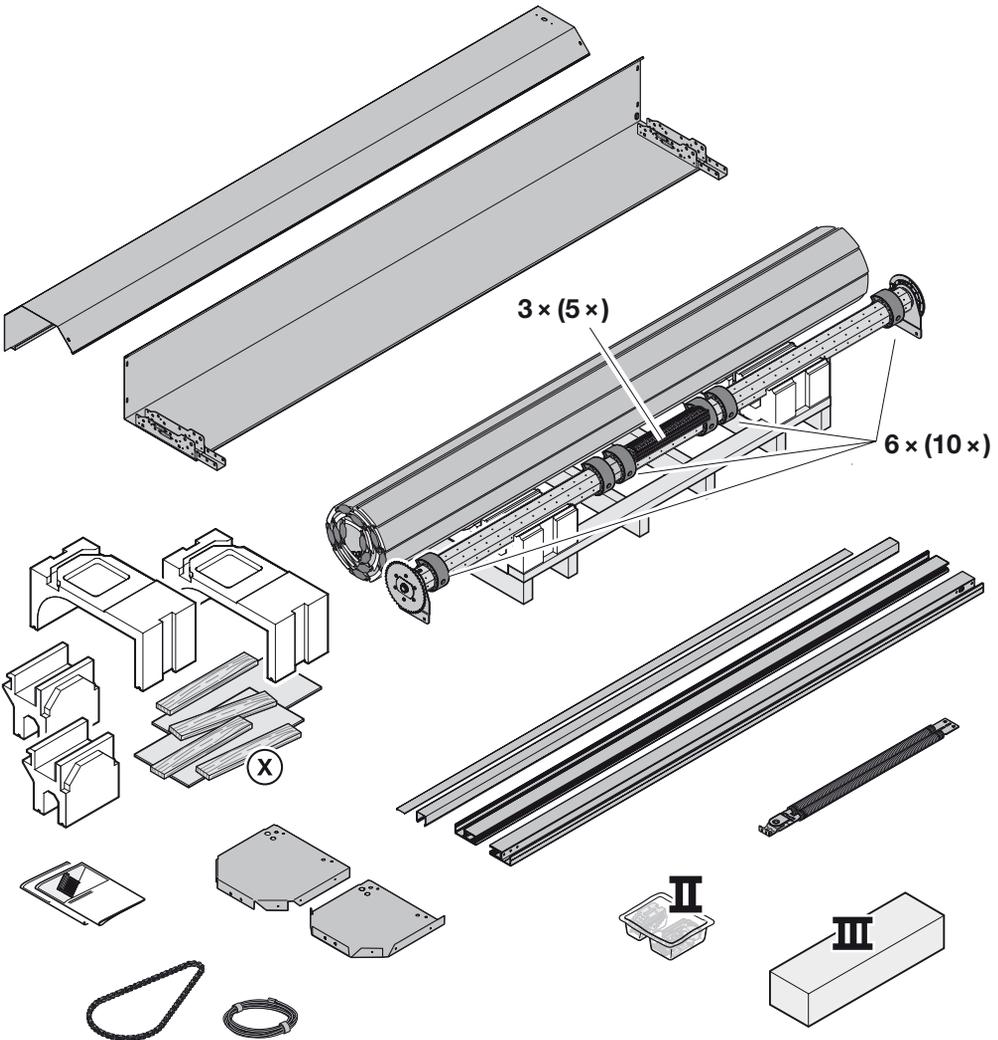

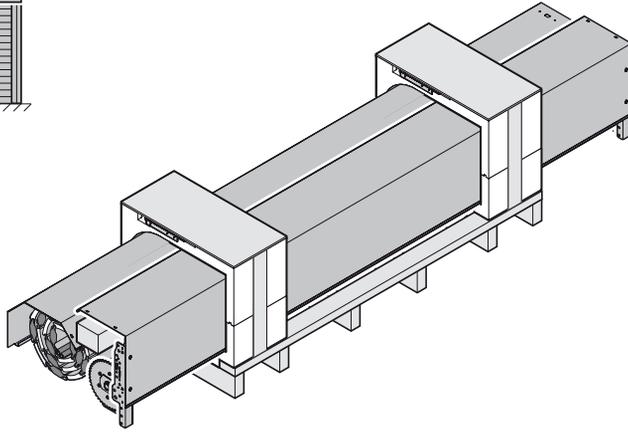

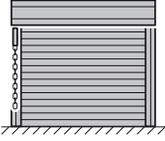

6 Dismantling

Have the door dismantled and disposed of by a specialist.
